NOTE

JPRS publications contain information primarily from foreign newspapers, periodicals and books, but also from news agency transmissions and broadcasts. Materials from foreign-language sources are translated; those from English-language sources are transcribed or reprinted, with the original phrasing and other characteristics retained.

Headlines, editorial reports, and material enclosed in brackets [] are supplied by JPRS. Processing indicators such as [Text] or [Excerpt] in the first line of each item, or following the last line of a brief, indicate how the original information was processed. Where no processing indicator is given, the information was summarized or extracted.

Unfamiliar names rendered phonetically or transliterated are enclosed in parentheses. Words or names preceded by a question mark and enclosed in parentheses were not clear in the original but have been supplied as appropriate in context. Other unattributed parenthetical notes within the body of an item originate with the source. Times within items are as given by source.

The contents of this publication in no way represent the policies, views or attitudes of the U.S. Government.

PROCUREMENT OF PUBLICATIONS

JPRS publications may be ordered from the National Technical Information Service, Springfield, Virginia 22161. In ordering, it is recommended that the JPRS number, title, date and author, if applicable, of publication be cited.

REFERENCE AID

CURRENT CHINESE SERIAL PUBLICATIONS

1981 EDITION

This reference aid is a complete translation of YIJIUBAYI-NIAN BAOKAN MULU [1981 LIST OF NEWSPAPERS AND MAGAZINES], compiled by, and offered for subscription through, the Beijing Post Office as of January 1981. The list is presented in order of domestic-subscription index number, as in the original; a list of 25 titles appended to the original as a supplement has been integrated with the main list in this translation and identified by asterisks following the index numbers. The prefix of an index number indicates the province of publication (see appendix), identified by standard abbreviations in this list. As in the original, odd prefixes, denoting newspapers, are gathered together at the beginning of the compilation. This section is followed by the magazine titles, denoted by even prefixes, which make up the bulk of the list. This year, there are more than 1100 titles in all, an increase of about 40 percent.

In this translation, the titles of periodicals are given in the following format:

a) Pinyin Romanization
b) Wade-Giles Romanization
c) Latin title (where provided by the Chinese, mostly for journals of the Chinese Academy of Sciences)
d) English translation of the title (an attempt has been made to adhere to English titles used by the Chinese, where known)
e) Title in Chinese simplified characters, as they appear in the original

Following the translated list, an alphabetical list of Pinyin titles is provided for cross-referencing purposes.
